**Encounters with Faeries, Ghosts and Spirits**  
Extraordinary experiences of Faerie Encounters, Ghostly sightings and spirit communications by ordinary people. Are they mad or over doing the Earl Grey or really tapping into something beyond our reality? Neil Geddes-Ward recounts some very strange and bizarre happenings from around the world of the strange encounters of things that go more than bump in the night!

**King Johns Lost Treasure**  
Next year it will be 800 years since King John of 'Robin Hood' fame lost all his Royal Treasures in the Lincoln Wash. It had been John's favourite hobby collecting jewellery, gold, silver plate, relics and other valuables. Most 'Treasure Hunters' have concentrated their searches near Sutton Bridge and Tydd Gotte but earlier this year a LiDAR ground penetrating survey showed all the ancient trackways & Roman banks that traversed the Wash, making access fairly straight forward, but 15 miles to the North it indicated a very exposed area open to the North Sea, at Fosdyke Bridge. This is where we think King John's Treasure was lost.

**July 4th**  
**Maria Wheatley**  
**Egyptian Divining and Dowsing**  
Decades ago, French diviners travelled to Egypt, and noted that in the Valley of the Kings one burial contained a pendulum device. Furthermore, the pendulum devices were painted on walls and upon stone temples.  
After much research, the diviners realised the relationship between the Sun-the great god Ra-and the Earth Goddess was paramount to health and well being as well as allowing dowsing to decode earth energies. The relationship between the Sun and the Earth gave birth to a powerful earth energy which Maria will describe in detail. She will also show you the dowsing devices and explore the frequency's and earth energies associated with ancient Egypt.

**John Billingsley**  
**Desire Paths – A New Line on the Ley?**  
The defining characteristic of a ley is – I hope we would all agree – straightness. That was the key point that Alfred Watkins drew attention to, and even advocates of the alleged energy lines that have come to be mis-labelled 'ley lines' generally feel honour-bound to stress straightness. It was this deliberate straightness that nettled many when Watkins first proposed the ley hypothesis; in the 1920s, it was hard for many to believe that primitive prehistoric peoples (as they were thought to be, despite the architectural evidence otherwise at places such as Stonehenge) could or would have laid things out in straight lines. Well, times move on, minds open under the weight of evidence, and the principle of deliberate prehistoric alignment – albeit not leys per se – is now accepted.

**November 7th**  
**Ananda Sirisena**  
**Advanced Aerospace Threat Identification**  
Following his previous talks on Mars and SETI, Ananda will talk about The Advanced Aerospace Threat Identification Program. It was a secret investigatory effort funded by the United States Government to study unidentified flying objects, but it was not classified. The program was first made public on December 16, 2017.
