

Dorset Earth Mysteries Newsletter

September 2021

Hi Everyone

The programme is starting to build !

We have now got speakers through until April (albeit with a March slot left to fill)

Sale of Books

This went really well. I guess we sold about a quarter of the books (75), and so far have collected over £170 for the Alzheimer's Society. I sent off a donation of £170 on behalf of Dave today.

People got some fantastic bargains. There were also books donated by the members and the sale of these benefitted the group.

I carted all the unsold books back home, and following some advice (Thanks Byron) went into various book buying sites and scanned the books in. With a few exceptions the amounts offered (when they were wanted) were very low. On the plus side they would all be collected from me and my spare room would look less like a library, and they would eventually be sold to people who wanted them. Part of me feels that I would like to give people another opportunity to buy.

At the next and subsequent meeting there will be ONE table laid out with some of Daves Books. These books will be rotated each month so there will always be something new to see. There will also be a table where donated books to the group will also be displayed. This will be an opportunity to get rid of the books you no longer require, and this will benefit the group.

Thanks for all those who attended ! It was so good to chat with you all after so long.

The Website

I have altered the website to show all the upcoming talks on the home page. The division of talks into years is fine, but near the end of the year, it's better to be able to see a future list.

Also, the latest newsletter and that of Wessex Research are downloadable. I am also experimenting with attachments to the talk detail. e.g It is possible to download the poster for the October talk. If you are members of another group who may be interested then please pop up a poster..

Talks Coming Up

So Far we have

October 7th

Luzia Barclay

Virus, Friend or Foe?

November 4th

Richard Hutley

Templars in America

December 2nd

David Whitehouse

Apollo 11, The Inside Story

January 6th
